CURRICULUM ENRICHMENT

1.3.2– PROJECT WORK/ FIELD WORK/ INTERNSHIP

INTRODUCTION

Internship work, as per the SPPU syllabus commences in the 9th semester-5th year of B. Arch course. It says, student should work for total 120 working days in organisation where architecture or its allied disciplines are practised under supervision of a professional who is registered with COA India. (Syllabus- 2015 pattern).

The course aims to impart the student, practical training under the guidance of experts/ professional, after the theory learnings done till 4th year. The practical training helps the student to get introduced to the professional industry, know the process of design, execution and management of an architectural project. The student gets acquainted to the methodology and application of technology learnt to the desired outcome of design process. The introduction of nuisances, revision and edition according to a particular project requirements and feasibility.

The students are guided in the previous semester to prepare portfolios of the work done in first seven semesters. They are guided to apply in architectural firms according to their practice of interest. They search for firms in the area and place of interest. The institute also guides with the list and details of firms.

The students also chance to attend various meetings held within the organisation between, architects, clients, consultants, vendors and labour. This helps them develop communication skills which are required to design and execute an architectural project.

During the training the students are expected to keenly observe, record learnings and summary of work done by them in a diary which forms for them as notes which can be referred later also for self-assessment.

The course ends with a sessional viva-voce in which the student presents the log book, work diary and drawings produced in the office with the duly signed permission of the principal architect.

The course also in a way makes the student industry ready, learns to practice as per the code of conduct laid down by the Council of Architecture and means to follow it.

The PG program also includes Professional Training (40working days) to be undertaken during intermediate time between II & III Semester. This course ends with a sessional viva-voce , with presentation of work done in internship.

Internship Guidelines by the Institute

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN GUIDELINES FOR THE PRACTICAL TRAINING / INTERNSHIP FOR THE FIFTH YEAR STUDENTS OF ARCHITECTURE

Date: 19 Nov 2015.

1. OBJECTIVE OF RECOMMENDED GUIDELINES

1. Encourage students and graduates of architecture to seek out and document a broad range of practical experience and/or training locally or internationally
2. To provide a reference format for recording, reporting and validating practical experience/training as a prerequisite to registration/licensing/certification
3. Facilitate the transfer and acceptance of valid practical experience/training across jurisdictions
4. Encourage mutual recognition of structured Internship programs among students and professionals.

2. PRACTICAL EXPERIENCE/TRAINING/INTERNSHIP AS A PREREQUISITE PRIOR TO ENTERING FINAL YEAR OF ARCHITECTURE.

Though the knowledge and skills gained through formal education is foundational of the development of an Architect. The period of minimum 100 working days during 1st of May to 31st of October in the Final (Fifth) academic year in the Architectural education is referred to as Internship.

3. ROLES AND RESPONSIBILITIES OF THE PARTICIPANTS

3.1 THE INSTITUTE – AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN

1. Set specific requirements for practical experience/training/internship
2. Set standards and provide support to participants
3. Provide opportunities for gaining professional competence through seminars, professional development courses, literature.
4. Facilitate recognition of practical experience/training/internship gained by the intern as required by the University.

3.2 THE INTERN / STUDENT

1. Endeavour to execute assigned tasks with diligence and a sense of inquiry
2. Communicate regularly with those overseeing the practical experience
3. Regularly record and report practical experience gained to their Authority in a timely manner and in the manner prescribed by the Authority
4. Respect confidentiality of the employment situation, and discussions with those overseeing the practical experience

3.3 THE FIRM / EMPLOYER / ARCHITECT

1. Have a general understanding of the objectives of the practical experience/training/internship requirements prescribed by the Authority
2. Provide reasonable opportunities for the Intern to gain adequate practical experience
3. Meet regularly with the Intern to review progress and verify the accuracy of the practical experience being recorded or reported (providing attestations as required by the Authority)
4. Encourage and facilitate the Intern's participation in alternate/supplementary opportunities to gain professional competence

3.4 THE MENTOR/ COUNSELLOR FROM THE INSTITUTE (ASAD)

1. Be available to the Intern for regular reviews of practical experience/training progress, discussion of career objectives, and broader issues related to the profession and the registration/licensing/certification process

-
2. Suggest alternate opportunities to gain professional competence, including alternate employment situations
 3. Attest to the Interns completion of alternate opportunities to gain professional competence as accepted by the Authority
 4. Confer if needed with the Employer regarding the Intern's progress

4. INTERN TO INCULCATE TRAINING UNDER FOLLOWING SUB HEADS:

1. Design and Design Documentation
2. Construction Documentation
3. Construction Contract Administration
4. Project and Office Management
5. Professional and Community Service

5. APPROPRIATE WORK ENVIRONMENTS AT THE EMPLOYER FIRM:

1. Practical experience is best obtained within an organization engaged in the comprehensive practice of architecture under the supervision of an Architect registered/licensed/certified to practice in that jurisdiction
2. At its optimum this environment will allow the Intern to follow a range of project types through all stages of development

6. ALTERNATE TRAINING OPPURTUNITIES VALID FOR INTERNSHIP (under the supervision of an Architect registered/licensed/certified to practice in that jurisdiction)

1. Landscape architecture firms
2. Interior design firms
3. Specialty firms or organizations in planning, urban design, programming, building investigation and analysis, heritage conservation, set design, code review, review of technical submissions, building technology, specification writing, construction cost estimation, or project management
4. Continuing Professional Development activities (research assistant)

7. PERIOD OF PRACTICAL EXPERIENCE/TRAINING

The period of minimum 100 working days during 1st of May to 31st of October in the Final (Fifth) academic year in the Architectural education

8. LOCATION OF INTERNSHIP

Students are encouraged to secure internship outside PUNE / Maharashtra to gain wider exposure in terms of architectural understanding and contextual parameters.

9. SUBMISSION REQUIREMENTS POST COMPLETION OF INTERNSHIP

1. Duly signed and stamped (from the employer firm) completed Log book in the prescribed format.
2. Duly signed and stamped drawing prints of the work done during the period of internship. (With permission and as per norms of the firm)
3. Photographs of the site where the work was done during the period of internship. . (With permission and as per norms of the firm)
4. Presentations / reports / any such material so as to establish the experience and knowledge gained during the period of internship.

10. VALIDATION OF INTERNSHIP FROM THE UNIVERSITY.

Viva voce will be conducted for the Practical Training (internship) completed during the Month of December – January in the Final academic year (Fifth Year).

This is to certify that Ms. Bhakti Udnoor, student of Aayojan School of Architecture and Design, Pune worked from 30 September 2021 till date as an Urban Design Trainee with us.

During this period, she worked on the following projects:

- PUNE: WALKING HAPPINESS INDEX, a work initiated by Pune Municipal Corporation.
- Documentation work under Gandhi Heritage Site Mission, Ministry of Culture, Government of India.

We think in the limited time she spent with us she has been able to involve in several important aspects of an Urban Design practice, something any trainee needs to know before starting ones own professional practice.

She was found to be very sincere, polite and hard working, few most important qualities any student must have.

We wish her a very bright future.

UG PROGRAM-4TH YEAR

SAVITRIBAI PHULE PUNE UNIVERSITY (SPPU)

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: JAGTAP SNEHAL JITENDRA

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession,

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design,

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week,

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

SUGGESTIONS BY CERTIFYING REGISTERED ARCHITECT – MEMBER OF ORGANISATION

Suggestions are earnestly solicited as regards the purview and procedures in the syllabus of "The Practical Training" Fifth year B. Arch. SPPU.

Snehal Jagtap successfully completed 120 working days at AHC. She is very practical and attentive girl with her performance. She is very good in Software and was very quick in giving outstanding results.

Really happy with her determination to finish the assigned task.

Wishing her all the very Best for her future endeavours!

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: JOSHI AALOK MAYURESH

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gate no 289, at post Waravadi, Tal. Purandhar, Dist. Pune. - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours,

Principal,

Aayojan School of Architecture and Design,

Fifth year B Arch;(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week, which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book

and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

SAVITRIBAI PHULE PUNE UNIVERSITY (SPPU)

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: JANGIR ABHISHEK PURUSHOTTAM

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist. Pune – 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training, relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

COMPLETION CERTIFICATE

16th December 2021.

To whomsoever it may concern,

This is to certify that Mr. Abhishek Kodag, student of Architecture at Aayojan School of Architecture and Design, has successfully completed his internship at Aquila Projects LLP, Pune. The tenure of his internship commenced on 14th of June and lasted till 30th of October 2021.

During his time here at Aquila Projects LLP, Abhishek has worked on various projects including – Residential Buildings, Institutional Buildings and Housing.

Abhishek has proven to be a wonderful intern and has shown dedication and commitment towards all tasks he was assigned. He has proven to be very dependable and has shown tremendous growth as an Architect during his tenure at the office.

Abhishek has shown a good understanding of design and has the right attitude going forward in the profession.

We, at Aquila Projects LLP wish him all the very best for his future.

Regards,

Ar. Ramakant Bhutada,

Director,

Aquila Projects LLP.

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: **SONAWANE AKANKSHA ROHINIKANT**

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gate no 289, at post Waravodi, Tal Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

- For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

SUGGESTIONS BY CERTIFYING REGISTERED ARCHITECT - MEMBER OF ORGANISATION

Suggestions are earnestly solicited as regards the purview and procedures in the syllabus of "The Practical Training" Fifth year B Arch, SPPU.

We would suggest the College to make the training period for at least 6 months so that the students will get good training and this will be beneficial for the architectural firm they work with.

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist. Pune – 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal.

SUB - FURTHER COMPLETION OF PROFESSIONAL TRAINING

Dear Sir/ Ma'am,

This is to certify that Miss. . Ankita Jayesh Gaikwad of 9th semester B.arch in Aayojan School of Architecture & Design, Pune has completed her architectural internship of only 90 days at Sandeep Shikre Associates & Architects from date 7th July 2021 to 10th December 2021 due to medical issues. (Please see medical certificate attached). However, she has put in extra efforts and time equivalent to 100 days of working time till 10th December 2021.

Further she will be continuing till End of December 2021 to complete official 100 working days.

I request you to consider this application.

Yours sincerely,

Signed /-

Fifth year B Arch: (SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

SUGGESTIONS BY CERTIFYING REGISTERED ARCHITECT - MEMBER OF ORGANISATION

Suggestions are earnestly solicited as regards the purview and procedures in the syllabus of "The Practical Training" Fifth year B Arch, SPPU.

100 days is too less in a span of 6 months (semester) Hence suggest to increase to 150 days i.e 6 months complete

Suggest colleges to make a database of Arch. firms that ^{previous} students have attended for internship & send letters (email) 1 month in advance along w/ Mark List/Ranking in Design/Total to the Database. to plan & expediate placements.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

endeavour, although academic and hence the circualrized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; It is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design,

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

INTERNSHIP COMPLETION CERTIFICATE

08th December 2021

To whomsoever it may concern,

This is to certify that Ashish Jain, student of Architecture at Aayojan School of Architecture & Design, Pune, has successfully completed his internship at Urban Tree, Pune. Ashish's term of internship commenced on 08th June 2021 and lasted till 30th October 2021.

During his time here, Ashish worked on a variety of projects – Public spaces, Private Residences and Residential Interiors as well. The work done was also of a diverse nature – from design development to preparing presentation drawings, working drawings and conducting site visits.

Ashish has proven to be a wonderful intern and has shown dedication and commitment towards all the tasks he was assigned. He has proven to be very dependable and has shown tremendous growth as an Architect during his time spent in office. Ashish has also demonstrated that he can cope well with pressure and demanding deadlines.

Ashish shows a good understanding of design and has the right attitude going forward into the profession. I am confident that he will be a good architect and wish him all the best for the future.

Regards,

Nakul Rege,
Principal Architect
Urban Tree

SAVITRIBAI PHULE PUNE UNIVERSITY (SPPU)

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: PINJARKAR CHAITRALI HARSHVARDHAN

Exam Number: 1151631718

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist. Pune – 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our endeavour, although academic and hence the circularized in shouldering the said responsibility

with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus.

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week, which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

This is a letter of appreciation corresponding to our groups intern Mrs. Parshani Gite, who completed her internship on 23rd Oct, 2021.

She was involved in multiple tasks & projects of our firm which includes technical skills like drawings, sketchings, research, etc. She did all the tasks with excellence and was helpful to our associates as a fresh mind. Her input out of her imaginations was what we were expecting from a academic student. She was always attentive in meetings & briefing session. Along with Curiosity she was actively participating in field visit.

At conclusion of this intern period, we like to wish for her bright future & successful career in architecture.

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM-IV)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: SACHDE DEVANSI ASHISH

Exam Number: 1151731036

K. J. SOMAIYA SCHOOL OF ARCHITECTURE AND DESIGN, PUNE

Gat No-289, at post Wadgaon, Tal. Pundhri, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circumscribed in shouldering the said responsibility with all your pragmatic and expedient contact with the ever-shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and leveling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; if it is in this regard that you are considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required via the said syllabus.

Thanking and with due regards

Sincerely yours

Principal,

Aaryojan School of Architecture and Design.

Principal Architect

Fifth year II Arch (SEM 05)

Practical Training: Subject code - 5201570 (SV)

Marks: 200

Credits: 5

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

SUGGESTIONS BY CERTIFYING REGISTERED ARCHITECT - MEMBER OF ORGANISATION

Suggestions are earnestly solicited as regards the purview and procedures in the syllabus of "The Practical Training" Fifth year B Arch, SPPU.

College should give scope to learn financial related activities so that student should know how to run the office when they practice. Many latest softwares e.g. Revit, Rhino should teach and practice.

Outdoor activities like site visits, coordination with consultants, knowledge of various materials to be incorporated.

Ms. Diksha Zende has worked in our organisation and she found sincere, hardworking, dedicated towards her work, Technosaviour, and we have offer her a job in our organisation as an architect after her graduation.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the professional

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precept and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

Full Name of Trainee: **SHRIVASTAVA HARSHVARDHAN**

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist. Pune – 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal.

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week,

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: WAKODE KAUSTUBH KISHOR

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gal no 289, at post Waravadi, Tal Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus.

Thanking and with due regards.

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch; (SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week,

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

SUGGESTIONS BY CERTIFYING REGISTERED ARCHITECT – MEMBER OF ORGANISATION

Suggestions are earnestly solicited as regards the purview and procedures in the syllabus of "The Practical Training - Fifth year B Arch. SFPU."

Architecture Pedagogy has gone beyond form, construction and building. Design is an integral part of the thinking and students are not exposed to that.

Design and system thinking should be a part of inputs given to students

Signature: _____

Industrial Training Certificate

To Whom So Ever It May Concern

This is to certify that **Ketki Kedar Damle**, Student from **Aayojan School of Architecture and Design**, has trained with the studio.

Her tenure with the studio is of 24 weeks (1st June 2021 to 16th November 2021) during which she was been introduced to the following:

Week 1-2 – Initial Induction to design and studio processes.

Week 3-4 – Initiating and application of Figments design approach

Week 5-9 – 1st Design Project- Apollo Pharmacy superstore - (Nanakgramguda), handled the Detailed Design Docket, shop drawings and approvals.

Week 10-24 – 2nd Design Project- Apollo Travel retail –Cochin Airport Pharmacy - handled the entire project from the concept phase to GFC Drawings and BOQ, along with signage planning

She has embarked on her experience design journey to convert concepts into design dockets. Her exposure has been all round and she has participated whole heartedly in the learning process. We have found her to be motivated, resilient, disciplined and hardworking. She has a unique quality to push herself.

We wish her all the best in her academics and professional career.

Best regards,

Jasleen Manrao

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their

placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture. The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week, which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above-mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: SHELKE NAMRATA SATVASHIL

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gal no 289, at post Waravadi, Tal Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circumscribed in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fully in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch:[SEM IX]

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: PUNDE PRANAV PRASHANT

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist. Pune – 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal.

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: **DHAKATE MANISHA NARAYAN**

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gate no 289, at post Warvadi, Tal Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that you are considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thinking and with due regards

Sincerely yours

Principal.

Aaryojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week, which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

Exam Number: 1151731043

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that you are considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

to whomsoever it may concern.

this is to certify that : mr. Pranay Lingayat

from : Aayojan school of Architecture and Design, Pune

was working as an intern under our guidance in our firm Tanishqa Architects and Planners for duration of six months

from : April 2021 to October 2021.

He is intelligent and has performed the given work well in time. His work ethics are good and we are pleased with his job. He was working on large scale projects and prepared presentation drawings, corporation drawings, working drawings, designed a few projects and made a considerable number of site visits.

He has an excellent character and has a lot of respect for others. I absolutely have no hesitation in recommending him to others.

We consider him as one of the best interns we ever had in our office. He is a very good human being and we wish him good luck for his life ahead.

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE,

Gate no 269, at post Waravadi, Tal. Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 8th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week, which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.
2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist, Pune – 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as; architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus.

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week, which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and leveling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus.

Thanking and with due regards

Sincerely yours,

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch.(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX.SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week,

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

SUGGESTIONS BY CERTIFYING REGISTERED ARCHITECT – MEMBER OF ORGANISATION

Suggestions are earnestly solicited as regards the purview and procedures in the syllabus of "The Practical Training" Fifth year B Arch. SPPU.

The student Miss Saloni has performed exceptionally well. She has been sincere

professional & dedicated in her office
demeanour. Has demonstrated good
grasp of drawings of all types &
good ability to learn new things.
She has fulfilled & exceeded expectations
of an intern in terms of drawing outputs,
site-visit checking, & 3D view marking.

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM V)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: SHATISMEET NANGOL

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gate no 289, off post Warehadi, Tal Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our endeavour, although academic and hence the circumscribed in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students scheduled for such training will have been elementarily acquainted with such course subjects as architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such, the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible. It is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus.

Thanking and with due regards

Sincerely yours

Principal,

Aavejan School of Architecture and Design,

Fifth year B Arch (SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 6

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week, which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the

permission of his employer to indicate the kind of work he has carried out.

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: HAJARE SANKET KHUSHAL

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, of post Waravadi, Tal Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design,

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

FIFTH YEAR B. ARCH. (SEM-IV)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

The Name of Trainee: NEURAGWAR SHREYA PURUSHOTTAM

Enroll Number: _____

ARTYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE

Ganesh 28th, 1st and 2nd Floors, 1st Floor, Pune - 411001

Dear Architect,

Obligations of good architectural practices of the world ever acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competencies to do them justice. It is to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our endeavour, although academic, and hence the circumscribed in shouldering the said responsibility

with all your pragmatic and expedient contact with the ever shifting technological and ideological scenarios in the profession.

An intermediate 5th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions often received by them as, during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as architecture drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structure design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisation. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architecture practice as possible. It is in this regard that you are considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in the regard may please be reported to the faculty in charge or nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus.

Thanking and with due regards

Sincerely yours,

Principal,

Artyojan School of Architecture and Design,

APPENDIX B ARCH (SEM VI)

PRACTICE TRAINING, Subject code – 1201570 (SV)

Mark: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students firsthand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of construction, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of 8 SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holiday.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week, which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the aid of the organization, under whose guidance the student worked, will sign the report, log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

SUGGESTIONS BY CERTIFYING REGISTERED ARCHITECT - MEMBER OF ORGANISATION

Suggestions are earnestly solicited as regards the purview and procedures in the syllabus of "The Practical Training" Fifth year B Arch, SPPU.

Mr. Siddhant Sharma has worked with us as an "Architectural Intern" in our Organisation under my guidance and has shared his experience and skills with his fellow colleagues. During his internship period he has been exposed to several Architectural projects and has contributed his knowledge in form of work.

We found him sincere, hardworking and punctual person. We wish him success in his carrier and life.

With best wishes,

Name of Certifying Authority: Mr. Sachin Kukade

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: TATHARE SIDDHI RAJENDRA

Exam Number: _____ 1151731035 _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist. Pune – 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal.

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week, which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book

and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: KALAMKAR SUSHANT DATTATRAY

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no.289, at post Waravadi, Tal Purandhar, Dist. Pune – 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus.

Thanking and with due regards

Sincerely yours

Principal.

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: KANCHAN TUSHAR DINYANESHWAR

Exam Number: _____

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Warayadi, Tal. Purandhar, Dist. Pune - 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice: thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week,

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.

SUGGESTIONS BY CERTIFYING REGISTERED ARCHITECT - MEMBER OF ORGANISATION

Suggestions are earnestly solicited as regards the purview and procedures in the syllabus of "The Practical Training" Fifth year B Arch, SPPU.

Practical training is a good exposure for students to learn about the profession of Architecture. Personally I feel the duration should be of minimum 6 months time.

SAVITRIBAI PHULE PUNE UNIVERSITY (SPPU)

PRACTICAL TRAINING PROGRAM

FIFTH YEAR B. ARCH. (SEM IX)

ACADEMIC YEAR: 2021 / 2022

LOG BOOK

Full Name of Trainee: YASH MOGARE

Exam Number: 1151530969

AAYOJAN SCHOOL OF ARCHITECTURE AND DESIGN, PUNE.

Gat no 289, at post Waravadi, Tal Purandhar, Dist. Pune – 412301

Dear Architect,

Obligations of good architectural practices all the world over acknowledge it to be the responsibility of every architect to advance the professional development of the younger entrants to the profession by helping them acquire proper understanding of the functions and activities of architects as well as accomplish requisite skills and competence to do them justice thus to always keep on ensuring for future, the noble dignity and social status of the profession.

Hence this cordial invitation extended to proffer you an opportunity to collaborate with us in our

endeavour, although academic and hence the circularized in shouldering the said responsibility with all your pragmatic and expedient contact with the ever shifting technological and ideological scenario in the profession.

An intermediate 9th semester is allotted to practical training in professional organisation for students to learn by example, about the application in practice of academic precepts and instructions till then received by them i.e. during the prior eight semesters.

The students schedule for such training will have been elementarily acquainted with such course subjects as: architectural drawings and graphics, 2D Computer aided drafting, architectural design, Building Technology and Services structural design, surveying and levelling and working drawings with a view to enable them function fairly in design sections of the professional organisations. They will also have been elementarily exposed to such complementary subjects like basic design, History of architecture, building climatology, landscape design, quantity surveying and estimation, building bye laws, professional practice.

As such the trainees are not expected to render full-fledged architectural services to your organisation but rather will have to be entrusted with modest assignments purposively of a range which can give them as much a window on customary purview and procedure of architectural practice as possible; it is in this regard that your considered collaboration is earnestly solicited.

Under the curriculum, the trainees are required to be engaged on full time basis and expected to behave properly, working regularly, punctually and diligently within whatever the disciplinary framework of your organisation. Any lapses on their part, in this regard may please be reported to the faculty in charge as nominated for the concerned academic year by the college.

For better description of the overall purview envisaged under the curriculum for practical training relevant portion of the concerned syllabus is enclosed for your perusal and ready reference. Needless to say you should always feel free to obtain whatever additional clarification needed from the faculty in charge required vide the said syllabus

Thanking and with due regards

Sincerely yours

Principal,

Aayojan School of Architecture and Design.

Fifth year B Arch:(SEM IX)

Practical Training: Subject code – 5201570 (SV)

Marks: 200

Credits: 8

Aim and Objective

The aim of introducing one complete term for the students to undergo practical training is to expose them to the world of Professional Practice and get hands on training under the guidance of a professional who is actively engaged in Architectural Practice. It will give the students first-hand experience of dealing with live projects of various nature and also the site experience to see how the projects get built on the site. The students will also be able to learn about the Office Management, Project Management, Contract Management, Human Resource Management, new techniques of constructions, advance building services landscape and environmental designing etc. This rich experience is expected to enhance the students' ability to think comprehensively and better prepare them for undertaking the Architectural Project work in the final semester.

Course Outline

The term of Practical Training will commence immediately after the examination of Fourth Year and will continue till the end of IX SEM or thereabout. The students are expected to work in the organization where architecture and its related practice are carried out and under the guidance of the professional who is registered with Council of Architecture. In case the student opts to go abroad he / she will work under the guidance of the professional who is registered with the council / any other organization controlling the profession of Architecture in the respective country. The students will decide very carefully about their placement venue as it is expected that they learn best ethics in Professional Practice and which produces quality architecture.

The total duration of the training will be minimum 120 working days excluding the holidays.

SUBMISSION

1. The students shall prepare an exhaustive Training Report separately along with a formal Log Book and the work diary issued to him by the College as per the College policy, week by week.

which will cover detailed record of the work done in the office, site visit reports, interviews with clients and any other agency, interaction with principal architect etc. The professional with the seal of the organization, under whose guidance the student worked, will sign the report, Log book and the work diary and also his reflection about the student's work and his overall approach and attitude towards the office work.

2. The students shall produce the above mentioned Training Report, Log Book and the work diary at the time of viva-voce examination. He will also produce few drawings with the permission of his employer to indicate the kind of work he has carried out.
