No suggestions...

To Work on sheets and model simultaneously. To realise how it really works on site.

frequent visiting faculty inputs were needed.

I guess we requires a visiting faculty for our design as he would have been able to give more input about design school.

i enjoyed the overall process as it was a little challenging task ; although, discussions were a little monotonous and some interesting activities could have happened. also, inviting visiting faculty throughout the sem could have helped us more.

More Exploration of design development...

Explore more ..so design will be make more creative and also site visit

The faculty of our college is very good. He teaches us all from the heart.

More interesting activities can be taken

No

QUALITATIVE RESPONSES

What are your general feeling about the college and the staff which you would cherish?

3 responses

I have been able to develop myself well overall through the 5 years because of the clg campus because of the staff and college environment.

Hanging out in Canteen and Amphitheater
Cultural Programs
Working together with classmates in studio

The college and the staff makes my presence in the college comfortable. I feel warmth and sense of belongingness in ASAD.

Additional comments or suggestions you would like to make.

3 responses

Nothing specific. Thank you!

Events in collaboration with other colleges should be introduced for better exposure and to share knowledge.

Well maintained computerlabs and Workshops and courses on how to use them to full potential

Very caring teaching staff and admin staff. Helped me alot in b.arch and are helping me out after b.arch as well. Really thankfully to all the staff and to ASAD.

1 suggestion is to Advertise about the college more, let people know the qualities of ASAD. If I'd given a chance to go back 5 years and choose a college, I'll choose ASAD.

Sorry to say but, i find Nathu Sir's way of teaching TOS easy compared to Cutino Sir. Cutino Sir does teach good but im not able to graps his way of teaching.

No any suggestion

If Sanjay sir is in BCM, it will be better.

A better understanding and envolvment of workshops and site visits in BCM AND BS is required
